MEMORANDUM FOR: Acting DCI

FROM : SA/DCI

SUBJECT : Report from Senator Huddleston [REDACTED]

25X1

1. John Elliff of the Senate Intelligence Committee Staff called me this morning to inform me that he is sending to Mr. Casey two documents.

-- A report by Senator Huddleston to members of the Committee [REDACTED]

25X1

-- John Elliff's staff report to Huddleston on the same subject.

2. John proceeded to give me some background on these two papers and the reason for sending them to Casey.

-- Senator Huddleston was quite pleased with the excellent cooperation he received from members of the Intelligence Community [REDACTED] and has produced his report to the Committee as a way of sharing his thoughts on some tough issues. He now desires that Mr. Casey read his report and would appreciate any comments Mr. Casey or other members of the Community might have. The report does not address certain topics which he was asked not to put in writing. According to John Elliff [REDACTED] briefed Senator Huddleston is aware of what those issues are.

25X1

25X1

-- The Senator would also welcome any comments on John Elliff's staff report.

-- John Elliff hopes that through this exchange of thoughts and analyses there will be a general improvement in Senator Huddleston's relations with Mr. Casey following the difficulties of last year.

3. John Elliff reported that in the production of these two reports critical assistance was provided by CIA, DIA, State, NSA, and the FBI. Senator Huddleston asks us to determine how comments from these other organizations can be provided on the documents which are being sent to Mr. Casey as head of the Intelligence Community. Because of the sensitivity of the information included and the compartmentation that follows we will need to decide how best to disseminate these two reports for Community comment.

CONFIDENTIAL

4. John Elliff explained that he has come directly to the office of DCI with this request after consultations with Danny Childs and because with the recent turnover in the Office of External Affairs, he wanted to insure that he had a point of contact in the Director's office. The papers are being handcarried to me today. I will pass them to you as soon as possible. John Elliff requests that I get back to him following the Senate recess with word that Mr. Casey has in fact looked at the reports. He believes that this will make important points with Senator Huddleston in the general effort to better relations.
